# CW Dynamic In-Motion Casewigher

Established in 1994, AP Dataweigh, Inc. is a checkweigher manufacturer offering a complete line of custom-built, dynamic checkweighers capable of addressing the needs of the pharmaceutical, food, agricultural and industrial product markets. We provide custom solutions to regulation compliance, quantity verification, weight sorting, missing component inspection and out-of-tolerance checkweighing. AP In-Motion Checkweighers are built to customer specification and designed to integrate into a number of applications including logistics and distribution, consumer packaging, material handling and food processing. We distinguish ourselves by making what customers need instead of trying to sell what we make – a subtle distinction, but one which we feel makes all the difference.

## Dynamic checkweighing solutions for your exact application and product line

The CW Casewigher provides a simple and economical way to conduct 100% product inspection. Built heavy duty and rugged, the CW Casewigher is ready for almost any environment. From 1 lb. packages to 200 lb. cases, the flexible CW unit can handle your exact weighing application.

## GSE Controller Features

---

- Stainless Steel IP65 Enclosure
- Password Protected Parameter Menu
- 4 Programmable RS-232 Comm. Ports
- 4 - I/O Modules (Expandable to 128)
- Full digital Front Panel Calibration
- Bright Operator Prompting LCD Display (665)
- Software Based operating system
- I/O Timer 10 ms
- 3 Zone Under/Over/Accept
- Select Display Units in g, lbs, oz, kg

## Specifications

---

- Up to 80 products per minute
- Up to .01 lb. or 4.5 gram accuracy\*
- Various Belt Widths and Line Heights
- Up to 200 lb. Capacity
- 60-second Calibration

## Options

---

- Stainless Steel
- Powder Coated Mild Steel Construction
- Networking - Printers - Sorting
- Rejection System - Stack Lights
- Lid Detect - Label Detect
- Automatic Dimensioning
- Metal Detector

## Communication Options

---

- Ethernet - DeviceNet - Profibus
- Modbus - Serial RS-232 & RS-485
- Can-Open - Analog

---

\*All accuracy and repeatability values are verifiable in our factory environment. Results may vary in different environmental conditions.
